Last year, **4,235 unique titles** were challenged, only five titles short of the highest number ever documented by ALA and significantly exceeding the annual average of 273 unique titles over the period from 2001–2020.

Statistics based on 8,596 total titles targeted for censorship.

BOOKS AND BEYOND

ALA's Office for Intellectual Freedom tracked **713 distinct censorship incidents** in 2025. Here's the breakdown:
